

Private Health Insurance

Private Health with Castleacre

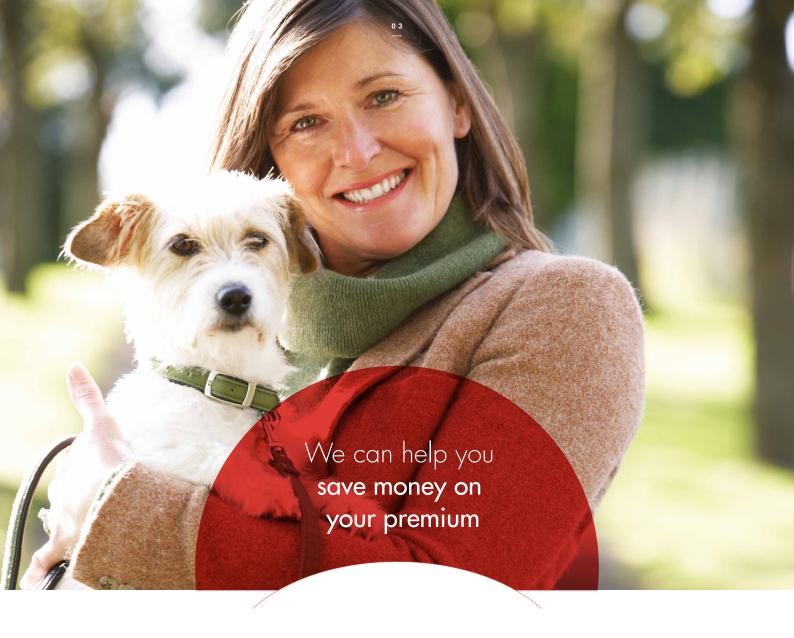

PRIVATE CLIENT INSURANCE BROKERS

Our role as your broker is to put you and your health first and compare insurance cover objectively.

We have in-depth knowledge of the health insurance industry and the limitations and benefits which lie outside standard terms and conditions.

We take the time to understand you and your family and this holistic, consultative approach helps us provide you with the best insurance options, finding cover that matches your lifestyle rather than offering generic advice based on generic health insurance policies.

A chance to Review and Re-think?

Many people assume that if they have health cover in place it is difficult to move a policy but that is not the case.

If you already have a private health policy Castleacre can help review your cover.

An independent review can give you reassurance if you have the right policy in place.

If we can improve terms for you, including saving money on your premium, we can help you move your policy even with pre-existing medical conditions.

Why Choose Private Health Insurance?

The UK boasts some of the most dedicated and professional medical staff in the world but the National Health Service is under huge pressure, with ever increasing demand and rising costs, as diagnosis and treatments become more sophisticated.

Identifying health problems and delivering treatment can often take much longer than we want and we cannot choose when, who, where and how we are treated. Local budget constraints can close access to more advanced and expensive treatments.

In a crisis many families are willing to pay privately for individual treatments but paying on an ad-hoc basis can be extremely expensive and health insurance provides a better value solution.

Key advantages over NHS treatment

"Speed, Choice, Expertise, Comfort"

- ✓ Accelerated diagnosis and treatment
- ✓ Choice of specialists and hospitals with appointments made at your convenience
- ✓ Access to the most advanced treatment options
- ✓ Care and recovery in a private, comfortable environment

Not all policies are equal

Health insurance can provide real relief and reassurance if you or a member of your family falls ill.

The best forms of health cover will give you control over treatment and deliver care on your own terms in a comfortable environment, but not all policies are equal.

While you may have already recognised the value of using personal health insurance are you confident that your insurance will react in the way you expect when you need to make a claim?

At Castleacre we:

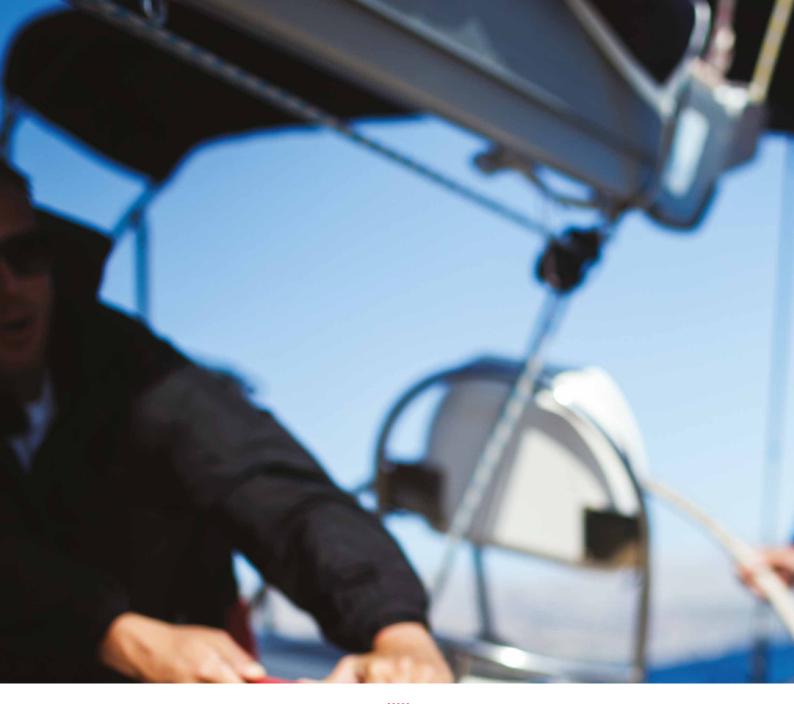

- ✓ Work for you and are not allied with a particular product or insurer
- ✓ Help you navigate through the jargon and small print in health policies
- ✓ Look for the best possible policy for your requirements on the best financial terms
- ✓ Negotiate with insurers to make sure your cover gives you access to the treatment you want tailoring your policy to your precise needs
- ✓ Objectively review an existing policy if we can improve your cover we will help you move insurers regardless of pre-existing health conditions
